

PRODUCT INFORMATION

- **HAND-HELD TANNING SOLUTION:** All sunless tans are a blend between your base skin color, the active ingredient DHA and cosmetics bronzers with the spray tan formula. Our Product has been carefully formulated to work with your base color to create an individual, natural looking glow, Bondi Sands is designed for use in all airbrush/HVLP systems regardless of manufacturer.
- **THE BENEFITS:**Our clients get a bronzed Australian glow with our Bondi Sands Solutions.. The salon-quality formulas are infused with the scent of coconut and enriched with aloe vera to give our clients a long-lasting tan that hydrates and nourishes the skin. Available in a range of shades to suit different skin tones, our Spray Tan Solutions are touch dry in seconds and can be washed off in just 4 hours.
- **SAY GOODBYE TO THE ODOR:** You are left with a light smell of coconut.The DHA reacts with the chemistry of one's skin, rather than merely masking it.
- **PROFESSIONAL TIP:** The DHA will begin to activate within 2-4 hours after application. Do not bathe or shower and avoid activities that cause perspiration for at least 8-hours after application.
